

## Switcher Champions

The Switchers is a community of green entrepreneurs and changemakers. Switchers are individuals or organizations whose activities generate a significant impact on SCP (Sustainable Consumption and Production) in the Mediterranean region.

We tell the stories of Switchers and their solutions for sustainable living in the Mediterranean region. Our goal is to give this community a voice, and tell stories of the people shaping their environment towards a more sustainable future.

We are always interested in hearing from exceptional people who are passionate about our mission and activities. How can you contribute? We often work with freelance storytellers, media artists, social media connectors, growth hackers, designers, photographers, and filmmakers, and we're open-minded enough to hear your ideas.

Our team works from around the world - location doesn't matter as long as you have a top-of-the-line internet connection, and availability around a CET schedule. We expect team members to be comfortable navigating online tools, highly dependable, and extraordinary in self-management. The team language is English; additional languages, especially French and Arabic, are good assets to mention. If you are from the project region, we are especially interested to hear from you.

We offer an environment of agile project management, collaboration, continuous learning, open communication, and meritocracy. We are dedicated to the community we serve, strive to deliver excellent results, and live by these team [principles](#).

If you want to be part of this adventure, whether for a short mission or long term, show us who you are and why we need to work with you. Send your application to Daniel Hires at [daniel.hires@scprac.org](mailto:daniel.hires@scprac.org) and remember: keep it short, keep it real, and impress us!

**The Switchers** is a part of the EU-funded [SwitchMed](#) programme, an initiative that supports and connects stakeholders to scale up eco and social innovations in the Mediterranean; our aim is to provide them with tools and connections to supporting partners for their eco and social innovations, to achieve productive, circular and sharing economies in the Mediterranean. SwitchMed is funded by the EU and implemented by UNIDO and UNEP, through the Mediterranean Action Plan (MAP) and its Regional Activity Centre for Sustainable Consumption and Production (SCP/RAC) and the Division of Technology, Industry and Economics (DTIE).
